NUMBER	POSITION OR FUNCTION	25X1A9a NAME	JUSTIFICATION
1	Analyst, Production Staff/SI	[REDACTED]	The mission and functions of the Production Staff/SI include responsibility for liaison with OCI and the National Indications Center.
		25X1A9a	[REDACTED] is the principal channel for this liaison with OCI and the N.I.C. Based on recent experience in connection with movements of special purpose aircraft of interest to this Office, it was concluded that [REDACTED] clearance into the Project would be of direct benefit to OSI and OCI.
		25X1A9a	
		25X1A9a	
1	Analyst, Guided Missiles Division/SI	[REDACTED]	[REDACTED] is responsible for surface-to-surface missiles in the Technical Branch of GMD. In this capacity he analyzes ballistic missile performance characteristics and is familiar with the testing and deployment thereof. He has had the P.I. course given by GP/RR and has been working closely therewith. [REDACTED] will be able to make a substantial new contribution to the analysis of Project data, as well as acquire information essential to the performance of his duties.

1	Analyst, Electronics Division/SI			Need for a qualified electronics analyst with a photographic and photo interpretation background and an excellent over-all knowledge of collateral photographic and related information which can be used in electronic exploitation of TALENT material.
3	Analysts, Nuclear Energy Division/SI			Need for clearance into the Project of the principal analysts in the Weapons Logistics Branch of Nuclear Energy Division/OSI. They are con-
			25X1B0a	With a large amount of collateral information on this subject. These analysts are uniquely experienced to complete this "marriage" of intelligence data. In fact, TALENT contains so much valuable information pertinent to their assigned problem, it is not practicable to continue an intense research effort on this subject without full use of this new source.
